## DOCUMENT DELIVERY SERVICES TO INDIVIDUALS

The National Agricultural Library (NAL) has a unique responsibility to supply copies of agricultural materials not found elsewhere.

Filling requests for materials readily available from other sources would divert NAL's resources and diminish its ability to serve as a national source for agricultural and agriculturally related materials. Therefore, NAL should be viewed as a library of last resort and individuals should submit requests first to local or state sources prior to sending to NAL. In the United States, possible sources are public libraries, land-grant university or other large research libraries within a state. Individuals in other countries should submit requests through major university, national, or provincial institutions.

If the needed publications are not available from these sources, the requests may be submitted to NAL with a statement indicating their non-availability. Submit one request per page following the instructions for libraries below.

### NAL's DOCUMENT DELIVERY SERVICE INFORMATION FOR THE LIBRARY

The following information is provided to assist your librarian in obtaining the required materials.

**LOAN SERVICE** — Materials in NAL's collection are loaned only to other U.S. libraries. Requests for loans should be made through local public, academic, or special libraries.

The following materials are not available for loan: serials (except USDA serials); rare, reference, and reserve books; microforms; and proceedings of conferences or symposia. Photocopy or microform of non-circulating publications may be purchased as described below.

**DOCUMENT DELIVERY SERVICE** — Photocopies of articles are available for a fee. Requests must be made through local public, academic, or special libraries. The library should submit a separate interlibrary loan form for each article or item requested. If the citation is from an NAL database (CAIN/AGRICOLA, *Bibliography of Agriculture*, or the NAL Catalog) and the call number is given, that call number should be listed in the proper block on the request form. Willingness to pay charges must be indicated on the form. Compliance with copyright law or a statement that the article is for "research purposes only" must be included on the interlibrary loan form. Requests cannot be processed without these statements.

#### Charges:

- Photocopy, hard copy of microfilm and microfiche — \$5.00 for the first 10 pages or fraction copied from a single article or publication. \$3.00 for each additional 10 pages or fraction.
- Duplication of NAL-owned microfilm — \$10.00 per reel.
- Duplication of NAL-owned microfiche — \$ 5.00 for the first fiche and \$.50 for each additional fiche per title.

**Billing** — Charges include postage and handling, and are subject to change. Invoices are issued quarterly by the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161. Requesters are encouraged to establish deposit accounts with NTIS. *DO NOT SEND PREPAYMENT*.

#### Send Requests to:

USDA, National Agricultural Library  
Lending Branch, ILL, 6th Floor  
Beltsville, Maryland 20705-2351

Questions concerning these services may be made by correspondence to Head, Lending Branch or by telephone (301) 344-3755.

NOTE: The Animal Welfare Information Center (AWIC) Serials List is a listing of serials housed within the National Agricultural Library which are relevant to animal care, use and welfare. This document will be updated periodically to include records of any new serials received at the Library which are pertinent to animal care, use and welfare issues and/or any changes to existing records within this publication.

The author would like to acknowledge Katy Bielenberg for her assistance in the production of this document.
